CHANGE THE PASSWORD THROUGH THE **ADMIN** APPLICATION

The access to the portal is protected by username and password for each user. Typically, the username is created as **name.surname**.

To allow the first access to the portal, a provisional password is provided by the system administrator but the User can modify it at any time to enhance the safety of its account (please, bear in mind that the new password must be at least 8-character long).

Step 1: Launch ADMIN application.

Step 2: Your profile is displayed and a new password can be typed by clicking on Modify

Admin			_
\cap	Userid Name Test World		
52	E-Mail		
\sim			
Mody	Mobile Phone		
	Membership domain dominio CIMA		
/	Circles	Roles	
	Monday, May 17, 2021 9:16 AM UTC		

Step 3: Enter the new password in both text boxes **Password** and **Confirm password**. Then click on **Save** to complete the process.
